Also, complete line of new Chatelaine purses in above leathers, as well as cut steel, finished with heavy metal tops fashioned over artistic dies. The price range is from \$2.50 to \$10.00.

## YOURS FOR THE ASKING—A FREE SATIN SKIN

That most exquisite, dainty, refining, revivifying beautifier; SATIN SKIN POWDER. Adhesive, invisible, harmless, this impalpable, hygienic complexion powder is only one made that doesn't clog the pores, because of its fluffy ingredients. LADIES, please LISTEN:

It is a fact that previous to the advent of SATIN SKIN Powder many ladies who knew the daily need of a hygienic facial powder to remove that "shiny look," make a presentable appearance for dress occasions, have done without. They felt fearful of the results attending use of ordinary powders, many of which are known to contain lead, lime, blanching and metallic salts. While these tend to a temporary brilliancy to the skin, they gradually render the skin dry and destroy its delicate natural texture. It remained for Albert P. Wood, Perfumer, Detroit, Mich., the compounder of SATIN SKIN Cream, to invent and introduce the most perfect article of its kind, to achieve success in manufacturing a hygienic complexion powder. SATIN SKIN Powder is recommended by leading chemists and physicians as the only powder they have examined which does not clog the pores. You are now cordially invited to call at our store and obtain a FREE packet of SATIN SKIN Powder. You will be very welcome, and positively not asked to buy.

In fact, you are requested to compare SATIN SKIN Powder with any you have or know of. For only red, rough, anemic skin, as well as all dress occasions, SATIN SKIN Powder will be found a refining, beautifying corrector. Give SATIN SKIN Powder a trial and clear beauty to the skin that must be seen to be appreciated.

CAUTION—Beware of so-called "imitations." It is ground soapstone and foot powder, unfit for facial use.

SATIN SKIN is a genuine complexion powder. Positively without lime, lead or any injurious ingredient. Use it with confidence and safety, with the assurance it will beautify any complexion and add charm inseparably its own. Notice your complexion improve, grow in youthfulness, under the magical influence of SATIN SKIN Powder. A trial packet contains a sample each of famous "Natural Flesh" and "Brilliant White" Satin-Skin Powder. It is yours FREE for the asking.

## Informal Fur Opening

Suit Section, Second Floor

For want of a better expression we say "opening" and "informal." There'll be no music and our souvenirs will be the exceptional values at this special showing. We have centered here every sort of Fashionable Fur, in Otters, Beavers, Electric Seals, Astrachans, Seal Skins, etc., in garments ready-to-wear; also in the real skin as it appears before the furrier cuts into it, that you may choose to your liking and have your jacket, cape, boa or muff made up in one of the many styles displayed.

Visit the Display Monday and Tuesday  
You Are Cordially Welcome

## MORMONS ALL CHANGE FRONTS

Rush Into the Republican Party in Utah.

NOMINATE THEIR KIND

And Will Send Them to Congress and Legislature.

Salt Lake City, October 4.—At the election in November, Utah will elect a Republican member of the lower House of Congress, a Republican Justice of the Supreme Court of the state and a Legislature, which will elect a Republican

to the Senate of the United States, to succeed Joseph L. Rawlins, whose term will expire March next.

That is to say, they will be elected as Republicans, but in fact, they will be the candidates of the Mormon church, which proposes to let the Gentiles have nothing. At the Republican convention held in Ogden a few days ago, every Gentile candidate was overwhelmingly defeated, and Joseph Howell, a bishop of the church from the northern portion of the state, was elected as the congressional candidate, while Jacob Johnson, a Gentile, a man with thirty years' experience as an attorney, and one who has occupied the position of district judge for many years was turned down for William McCarty, a young Mormon. Reed Smoot, the youngest member of the church board of officers known as the "Twelve Apostles," will be sent to the United States Senate. Up to the present time, whenever conventions have been held, it has been the custom of both parties to divide the offices. If a Gentile was selected as the candidate for Congress, the candidate for Senator was chosen from the church membership, and vice versa. It was the same in the case of the state and federal offices, which will elect a Republican

time the church will not give the Gentiles anything, if they can help it, beyond a few minor offices and few at that.

The Mormon church is not only a spiritual body, but also a practical organization, and it always endeavors to be with the party in power. Six years ago it believed that Bryan was going to be elected and Utah went Democratic by 2,000. Two years ago the leaders saw a great light. During the first term of McKinley it did not get the recognition it believed it was entitled to, so the political situation was changed. Utah went Republican. It elected Kearns, a Gentile, United States Senator. Realizing that it has full power, the church has decided not to send any more Gentiles to Congress. It will send its own members. To make sure of the election of a Republican Senator, the church has again been including in what is known as the "betting apart" process.

Before Utah was admitted to the Union there were two parties here, the People's party, and the Liberal or Gentile party. When Utah was admitted the latter party accepted the declarations of the church, as to abandoning polygamy and church domination in matters temporal, in good faith, and the members went into the Democratic and Republican parties as they had belonged before coming here.

But the great mass of Mormons did not know which party to unite with, the leaders and together then understood the rank of "betting apart" their members as Democrats or Republicans. So now was this work done that the Gentiles following were **none**. The state went Republican. Parker divided in Utah women have the outrage. For instance when were Republicans, husbands Democrats and daughters Democrats.

In this year of grace the setting apart has begun early. It began several weeks before the convention. The first to go was L. W. Shurtliff of Ogden, a mighty man in Utah and President of the Weber state of Zion, a high church official. Shurtliff had been a Democrat all his life, but he saw a light. D. O. Hildreth, a man who had been honored by the Democratic party by being named to the state senate a member of the Hildreth, Hyrum Hayball and Fred Turner, leading Mormons of Cache county, the home of the Logan family, a building nearly as large as the temple

in Salt Lake City, united with the Republicans. George T. Egan, the leading Mormon attorney of Richfield, the county seat of Sevier, forsook Democracy. Jacob Evans, who for two terms had been the Democratic county attorney of Utah county, attended a Democratic committee meeting on Thursday and urged his party to prepare for a bitter contest, and on the Saturday following came out in the papers with a volume of reasons why he should be a Republican. James Jensen, President of Wasatch state of Zion, a high official and all his life an intense Democrat, threw off his Democratic garments and donned those of the opposition. Thomas Fowler, one of the leading Democrats of the Third Ward of Salt Lake City; E. K. Rich, another, and Jacob Hallgren, still another, all left the Democracy and are candidates for nomination on the legislative ticket of the Republican party.

W. K. Reed, a prominent Democrat of Mant, the site of another temple, quit the Democracy and is now aiding the progress of the Republicans. Egan at Richfield might be quoted. But in every case the wonder is Mormons of high degree. As a result of this slump the rank and file of the church have come

to believe that duty, through the church officials is directing them to abandon the Democracy and unite with the Republicans. The state of affairs will continue until a change takes place in the national administration. Then the state of Utah will return to the Democratic fold. But until that time the state will be Republican and every candidate elected to Congress will be Mormon.

Joseph Howell, the candidate for Congress, is the bishop of what is known as the Wellsville Ward, in Cache county, a fervent Democrat stronghold. It will go Republican this fall by a large majority. Howell is a young man and has been a successful general storekeeper. William McCarty, a young lawyer, is the candidate for judge. Reed Smoot, the next United States Senator, is a young man and a very shrewd one. He is well educated and successful in business affairs and he is a firm believer in Mormonism.

Between Congressman Rothwell and Senator Kearns there has been war for some time over the propriety question, Kearns standing by Roosevelt in favor of the Chinese, while Rothwell voted for protection to the sugar beet

interests of the state, which are extensive. The church candidate, Smoot, in the convention last week caused a platform to be passed indicating the administration generally but saying nothing about the best sugar interests or about the propriety of capturing the organization by electing Judge John K. Luck, a Mormon who sits on the bench in his own county, as chairman and electing John C. Goodwin, the editor of the Press-Scimitar, as the head of the committee on resolutions and today declared he would join matters and go to the Senate.

Everything offered by Howell and Kearns, who were also on the committee, was turned down and Smoot ran the convention to suit himself. His candidates were selected unanimously, almost.

In all county conventions held up to this point there have been nominated for both houses of the Legislature, and from appearances every county in the state will nominate Smoot tickets with the exception of Salt Lake county, which has only fifteen members out of eighty-five.
